*PG&E has sent most of us letters advising that given the growing threat of extreme weather we need to be prepared for power outages. If extreme fire danger conditions threaten a portion of the electric system, it will be necessary for them to turn off electricity in the interest of public safety.*

*We would like to remind you of the importance of being prepared. Have a plan if your power goes out. Have drinkable water for you and your animals. Plan for medical needs like medication that requires refrigeration. Have flashlights, fresh batteries, first aid available.*

*PG&E has additional information on wildfire safety on their website [pge.com/wildfiresafety](http://pge.com/wildfiresafety).*
