We will continue our efforts to enforce the CC&R's and continue to encourage property clean up which in turn will increase our property values.

A Big Thank you to Jim Price and Teri Goulart for all their hard work.

Oral health is an essential part of overall health throughout life. Improving oral health improves overall health, well-being and quality of life of individuals and communities. Most diseases of the mouth, such as tooth decay, gum infections, and mouth cancers are preventable. Effective preventive measures are available.

Tehama County Health Services Agency – Public Health (TCHSA-PH) is implementing initiatives to serve children, adults and seniors of rural communities by providing (1) Education and resources for prevention (2) Improving access to oral health care services.

As the first step in this effort, TCHSA-PH will bring oral health awareness to Rancho Tehama through the following ways.

- The monthly newsletter, *Trailblazer* will include articles on oral health and disease prevention
- Tips for a healthy smile, will be posted on the Rancho Tehama Facebook
- Posters, Infographics promoting oral health will be routinely placed on the bulletin boards where our community members gather (Rec Hall, Post office, RT office etc.)
- A community awareness meeting
- Working with the SERRF Children on Monday, September 30th to educate them on oral health

We look forward to working with everyone to improve their oral health!

Healthy Mouths – Healthy Tehama!
